Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Applicant's response to non-compliance amendment dated 2/18/05 has been received in application serial number 09/874,335 and puts the amendment into correct format.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 30 is rejected under 35 U.S.C. 102(e) as being anticipated by Wisselink 6,428,565. Wisselink discloses the invention as claimed comprising: A proximal tubular section with struts (12, 18); a first distal tubular section with struts connected to the proximal section by connector members (*specific parts 42, 48 make up the entire connector apparatus 17 see col. 9, lines 27-57*); a second distal tubular section having struts (18) each of said first and second distal tubular sections having proximal and distal ends and the first and second distal tubular sections connected at their proximal

ends; wherein the shape of the connector members are different than the strut shape of the proximal and distal end sections and wherein the distal and proximal sections are capable of being expanded to different diameters.

Allowable Subject Matter

5. Claims 19-24, 26-28 and 29 are allowed.

Response to Arguments

6. Applicant's arguments filed 2/18/05 have been fully considered but they are not persuasive. Applicant alleges that the examiner "*seemingly ignored*" at least one limitation for claim 30 and contends that Wisselink does not disclose the claimed limitations of "a connector member that has a shape which is different than the strut shape of the proximal and distal end sections.

7. The examiner has considered all of the claim limitations of claim 30 and believes that Wisselink does disclose the invention as currently claimed. Specifically, the connector portion of Wisselink *in its entirety* is pointed out as element "17" (see col. 9, line 27). The examiner pointed out elements 42 and 48 of apparatus "17" to further narrow or zoom into the fact that this is a connector with a structure different from the strut shapes of the proximal and distal end sections.

8. Applicant further contends that Wisselink apparatus is not a stent. It has been noted that applicant only mentions the term "stent" in the preamble and it does not breath life into the body of the claim. Nevertheless, (whether applicant agrees or disagrees with the preamble breathing life...) the term stent as defined is broad and encompasses and scaffold structure capable of supporting a body lumen and Wisslink provides such a device.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
